Part VI: Summary of the risk management plan for Morfin Owlpharma

This is a summary of the risk management plan (RMP) for Morfin Owlpharma. The RMP details important risks of Morfin Owlpharma how these risks can be minimised, and how more information will be obtained about Morfin Owlpharma's risks and uncertainties (missing information).

Morfin Owlpharma's summary of product characteristics (SmPC) and its package leaflet give essential information to healthcare professionals and patients on how Morfin Owlpharma should be used.

I. The medicine and what it is used for

Morfin Owlpharma is authorised for severe pain (see SmPC for the full indication). It contains morphine as the active substances and it is given orally as tablets.

II. Risks associated with the medicine and activities to minimise or further characterise the risks

Important risks of Morfin Owlpharma, together with measures to minimise such risks and the proposed studies for learning more about Morfin Owlpharma's risks, are outlined below.

- Product information including warnings, precautions, and advice on correct use. Package leaflet is enclosed in the package and the Summary of Product Characteristics (and Package Leaflet) are published on the webpage of the Danish Medicines Agency.

Together, these measures constitute *routine risk minimisation* measures.

If important information that may affect the safe use of Morfin Owlpharma is not yet available, it is listed under 'missing information' below.

II.A List of important risks and missing information

Important risks of Morfin Owlpharma are risks that need special risk management activities to further investigate or minimise the risk, so that the medicinal product can be safely taken. Important risks can be regarded as identified or potential. Identified risks are concerns for which there is sufficient proof of a link with the use of Morfin Owlpharma. Potential risks are concerns for which an association with the use of this medicine is possible based on available data, but this association has not been established yet and needs further evaluation. Missing information refers to information on the safety of the medicinal product that is currently missing and needs to be collected (e.g. on the long-term use of the medicine);

Summary of safety concerns	
Important identified risks	None
Important potential risks	None
Missing information	None

II.B Summary of important risks

The safety information in the proposed Product Information is aligned to the reference medicinal product.

II.C Post-authorisation development plan

II.C.1 Studies which are conditions of the marketing authorisation

There are no studies which are conditions of the marketing authorisation or specific obligation of Morfin Owlpharma.

II.C.2 Other studies in post-authorisation development plan

There are no studies required for Morfin Owlpharma.
