

Urgent Field Safety Notice

POC 16-020.A.OUS

July 2016

Xprecia Stride™ Coagulation Analyzer

Data Management Software CD V1.0 Included with Some Analyzers

Our records indicate that your facility may have received the following product:

Table 1. Affected Product

Analyzer	Siemens Material Number (SMN)	Data Management Software CD inside Analyzer Kit
Xprecia Stride Coagulation Analyzer	10714595	V1.0

Reason for this Urgent Field Safety Notice

Siemens Healthcare Diagnostics has confirmed that version (V1.0) of the Data Management Software (DMS) CD was packaged with some Xprecia Stride Coagulation Analyzers. The version of the DMS CD should have been V1.1 as this will match the version of firmware pre-loaded on the analyzer. These two versions must match in order to provide full functionality to the analyzer.

Risk to Health

There is no impact to patient results or to the safety of the operator.

Actions to be Taken by the Customer

- If a V1.0 DMS CD was included with your analyzer, please discard it and complete the attached form to request a V1.1 DMS software CD.
- If you loaded firmware onto your analyzer with a V1.0 DMS software CD, you will need to reload the firmware onto your analyzer with a V1.1 DMS software CD.
- If a V1.1 DMS software CD was included with your analyzer, then no action is needed.

Please retain this letter with your laboratory records, and forward this letter to those who may have received this product.

We apologize for the inconvenience this situation may have caused. If you have any questions, please contact your Siemens Customer Care Center or your local Siemens technical support representative.

Xprecia Stride is a trademark of Siemens Healthcare Diagnostics.

FIELD CORRECTION EFFECTIVENESS CHECK

Data Management Software CD V1.0 Included with Some Analyzers
