URGENT FIELD SAFETY NOTICE: RA Ref # 1638238

FSCA Identifier: Product Field Action RA Ref # 1638239

Type of Action: Field Safety Corrective Action

Description: rHead Radial Head and Uni-Elbow

Legal Manufacturer Stryker GmbH, Bohnackerweg 1
2545 Selzach, Switzerland

Product name: See Attachment

Catalogue #: See Attachment

Lot #s: All lots

Dear Customer,

Stryker GmbH - Division Trauma & Extremities is initiating a voluntary product removal of the Stryker **rHead Radial Head and Uni-Elbow System**. The system is intended for replacement of the proximal end of the radius. This includes replacement of the radial head for degenerative or post-traumatic disabilities, presenting pain, crepitation and decreased motion at the radio humeral and/or proximal radio ulnar joint with joint destruction or subluxation visible on x-ray and resistance to conservative treatment.

Reason for Removal:

The result of a review of the currently available data of the Stryker rHead Radial Head and Uni-Elbow system was found to be inconclusive to continue supporting the performance of the device. Consequently, we have decided to remove the product from the global markets.

Health care professionals that have patients using the Stryker rHead Radial Head / Uni-Elbow Prosthesis System should continue to follow up those patients in accordance with the routine standard of care.

A Stryker rHead Radial Head and Uni-Elbow System will be available upon request as part of our loaner set programs for revision surgeries, if the appropriate criteria exist, procedure failure is NOT related to the implant, and the implant is not to be available for an initial or primary procedure.

Potential Hazards

Potential Hazards Post-operatively, the following may occur; Implant loosening (septic and aseptic), Instability (mod-severe), Stress fracture (bone), Cyst formation (bone resorption), Stiffness, Pain, Impingement, Heterotopic ossification.

Our records indicate that you have received at least one of the subject devices and you are therefore affected by this action.

We request that you read this notice carefully and complete the following actions:

1. Immediately check your internal inventory and quarantine all subject devices pending to return to Stryker.
2. Circulate this Field Safety Notice internally to all interested/affected parties.
3. Maintain awareness of this notice internally until all required actions have been completed within your facility
4. Inform Stryker if any of the subject devices have been distributed to other organisations.
 - a) *Please provide contact details so that Stryker can inform the recipients appropriately*
 - b) *If you are a Distributor, note that you are responsible for notifying your affected customers.*
5. Please inform Stryker of any adverse events concerning the use of the subject devices. Please comply with any local regulations concerning the notification of adverse events to your National or local Competent Authorities.
6. Complete the attached customer response form. It may be that you no longer have any physical inventory on site. Completing this form will allow us to update our records and will also negate the need for us to send any further unnecessary communications on this matter. Therefore, please complete even if you no longer have any of the subject devices in your physical inventory.
7. Return the completed form to your nominated Stryker Representative (indicated below) for this PFA. On receipt of the form, a Stryker Representative will contact you to organize any applicable ongoing actions.

We request that you respond to this notice within 7 calendar days from the date of receipt. The target date for completion of this action is ----- and your timely response will enable us to ensure that we meet this target.

Your designated contact person for this action is given below. Should you have any queries concerning this matter please do not hesitate to contact them directly
