Field Safety Notice from and on behalf of TURON MEDTECH AB for sterile plastic bushings

Dear Ladies and Gentlemen,

One of our key principles at Siemens Healthineers is that we do not compromise on quality. Quality is key and therefore it is our responsibility to inform you that there is an official Field Safety Notice (FSN) from one of our suppliers.

This safety notice only applies to you if you are using **sterile plastic bushings from TURON MEDTECH AB** with the Biopsy Unit from our Women's Health portfolio.

Please find all relevant information in the attached Field Safety Notice from TURON MEDTECH AB and follow the given instructions.

For further questions regarding the plastic bushings, please contact TURON MEDTECH AB directly using the contact information provided in the FSN.

For all other questions regarding Siemens Healthineers products please contact your responsible sales representative, your partner in providing healthcare services and improving patient experience. We regret the inconvenience caused by this issue.

Sincerely yours,

Siemens Healthcare GmbH
