

For companies marketing one or more medicinal products
licensed in ATC group A06 or A02AA04
on or before 5 April 2009

**Reassessment of the reimbursement status of medicinal products in
ATC group A06 and A02AA04 resulting from the reassessment
procedure**

3 September 2009

The Danish Medicines Agency has reassessed the reimbursement status of
medicinal products in ATC groups A06 (laxatives) and A02AA04
(magnesium compounds) marketed on or before 5 April 2009.

File no.:
5315-6

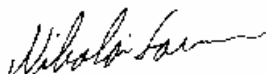

Our decision is enclosed. All medicinal products comprised by the decision
maintain their current reimbursement status, which means that they do not
carry general reimbursement. Consequently, the reassessment did not result
in any change of reimbursement status for the medicinal products
concerned.

The medicinal products of your company that are comprised by our
decision are:

.....

The decision concerns all strengths and pack sizes of the medicinal product
in question.

Yours faithfully,

Nikolai Laursen
